Marketing Officer :

OVERVIEW

This program accounts for LAM Part 1. It constructs fundamental knowledge and training in design philosophy and technical prowess for students to practice or further study in Architecture. The learning and training will be held in a collaborative teaching environment to empower students and produce graduates who are artistic and analytical, able to discover their aptitudes and capabilities for their careers in the architecture profession. The programme emphasises sustainability and regenerative architecture, equipping students to address global challenges and produce graduates who think critically and contribute meaningfully to the betterment of our planet.

PROGRAMME STRUCTURE *(NOT INCLUDING GENERAL COURSES MPU)*

1 YEAR

SEMESTER 1

- Architectural Design I
- Construction Technology and Materials I
- Multimedia, Graphic, and Architectural Presentation
- Introduction to Green Concept and Philosophy

SEMESTER 2

- Architectural Design II
- Construction Technology and Materials II
- Building Services I
- Architectural Communication
- Human Culture and Built Environment

YEAR 2

SEMESTER 3

- Architectural Design III
- Building Services II
- Construction Technology and Materials III
- Architectural Computer-Aided Design I
- Architectural Working Drawing

SEMESTER 4

- Architectural Design IV
- Architectural Computer-Aided Design II
- History of Asian Architecture
- Environmental Science
- Landscape Architecture
- Local Wisdom in Sustainable Development

YEAR 3

SEMESTER 5

- Architectural Design V
- Measured Drawing
- History of Western Architecture
- Architecture Cinematography
- Structural Technology
- Green Concept and Philosophy

SEMESTER 6

- Architectural Design VI
- Topical Study
- Professional Practice
- Architectural Management
- Basic Entrepreneurship

SEMESTER 7

- Industrial Training

CAREER PROSPECTS

Architecture is a very comprehensive field that combines art and science. Graduates are trained to think creatively, problem-solve, and harmonise development. At UCSF, students will undergo 10 weeks of practical training as part of the programme module. This will equip graduates with the theory and practical lessons necessary for a career prospect in;

- | | | |
|------------------------------|----------------------------------|----------------------------|
| ■ Assistant Architect | ■ Graphic Designer or Visualizer | ■ BIM Operator or Modeller |
